STALLMAN & POLLOCK LLP

Dated: 4/24/01

By:

Chianti Appling

Sir:

On March 23, 2000, the above-identified patent application was filed identifying Matthew Douglas Penry and Russell Flack as co-inventors. The application included a declaration document identifying Mr. Penry and Mr. Flack as inventors, but signed only by Mr. Penry.

On June 12, 2000, the Patent Office issued a Notice to File Missing Parts of Non-Provisional Application, stating that the signature of Russell Flack was missing from the declaration.

On October 3, 2000, a response to the Notice to File Missing Parts of Non-Provisional Application was filed; the response included a petition under 37 CFR §1.47(a) requesting that the

MAY 01 2001

OFFICE OF PETITIONS

application be accorded an official filing date in view of the good faith, but unsuccessful attempts to obtain the signature of inventor Russell Flack on the declaration.

On November 24, 2000, the Patent Office issued a Decision Refusing Status under 37 CFR §1.47(a), stating that applicant had failed to show or provide adequate proof that a diligent effort had been made to reach or locate Mr. Flack.

Subsequent to the issuance of the PTO Decision Refusing Status under 37 CFR §1.47(a), the undersigned has been successful in obtaining Mr. Flack's signature on a declaration for this application. The original of that declaration is enclosed herewith.

In view of the above, it is requested that the Mr. Flack's declaration be entered and that the application be forwarded to the appropriate examining group for examination.

Under separate correspondence, applicant also provides assignments of the invention by Mr. Penry and Mr. Flack to National Semiconductor Corporation.

Any questions or comments regarding the above should be directed immediately to the undersigned at 415-512-1312, ext. 102 or mpollock@stallmanpollock.com.

Respectfully submitted,

STALLMAN & POLLOCK LLP
